

Wonderful New Coal Oil Light

Burns Vapor or Gasoline
Saves Oil

Costs You Nothing
to have this wonderful new Aladdin coal oil (kerosene) mantle lamp demonstrated right in your own home. You don't need to pay us a cent unless you are perfectly satisfied and agree that it is the best oil lamp you ever saw.

Twice the Light On Half the Oil!
Recent tests by the Government and noted scientists at 35 leading Universities, prove the Aladdin gives more than twice the light and burns less than half as much oil as the best round wick, open flame lamps on the market. Thus the Aladdin will pay for itself many times over in oil saved, to say nothing of the increased quantity and quality of pure white light it produces. A style for every need.

\$1000.00 Will Be Given
by the Mantle Lamp Company—the largest Coal Oil (kerosene) mantle lamp house in the world—to any person who shows them an oil lamp equal to the Aladdin. Would they dare invite such comparison with all other lights if there were any doubt about the superiority of the Aladdin?

Perry Mailey Alliance, Nebr.

Stock and Supply Tanks

Will outlast several steel tanks or several tanks made from other material, and cost less money. These tanks will keep the water cooler in summer and warmer in winter. Send for price list today.

QUARANTINE REMOVED

Long Fight Against Stock Plague Is Ended by Removal of All Quarantine Restrictions

Washington, April 10—The long fight against the foot and mouth disease is over. The secretary of agriculture has issued an order which on March 31 removed all foot and mouth quarantine and restrictions against the shipment and movement of livestock. The order signed specifically removes the quarantine from a small territory in Christian county, Illinois, the last area which was under suspicion. Along with the removal of this local quarantine, the various orders restricting shipment of cattle are rescinded, so that dealers can now ship their cattle as before the first quarantine was imposed.

Upon notification that the United States is free from the disease, all foreign governments which have placed embargoes on American cattle are expected to remove these embargoes so that cattle raisers will then be able to resume shipments to these foreign countries.

The magnitude of the work of eradication and control carried on by farmers, shippers, and the state and federal governments is shown by the fact that before controlled, the disease had gained a temporary footing in twenty-two states and the District of Columbia. The disease appeared and was controlled in 269 different countries.

The importance to the stock raising industry of eradicating foot and mouth disease may be judged from the results of the plague in Denmark where the disease appeared at about the same time that it broke out in the United States. The area of Denmark is approximately equal to that of three New England states, Massachusetts, Connecticut and Rhode Island. It is, however, a great dairying country, and it has been estimated that the losses in milk in one year caused by the foot and mouth disease have amounted to approximately one-third of the total cost of eradicating the pestilence in 22 states of this country. The Danish authorities were unable to carry out their former policy of slaughter, and were compelled to resort to such measures of control as could be established by quarantines and other restrictions.

As a result of better understanding between the state and national governments, representatives of the department believe that many of the obstacles which confronted the authorities in the past outbreak would not be encountered in dealing with any future occurrence of the disease. The veterinarians, however, will not abate their watchfulness for some time. Examination of animals and animal products offered for import will continue to be unusually strict. The department, moreover, particularly urges all farmers and cattle handlers to notify their state veterinarians and the department of any suspicious cases of sore mouth combined with lameness in their animals. Those in charge of the eradication work are confident that the disease is wiped out, but they wish to use every precaution to detect and control any sporadic cases that may develop in remote districts.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

A NEGRO NEWSPAPER

J. O. Minor of Alliance Begins Publication of a Newspaper for the Colored People

Number one of volume one, The Negro News, was issued this week from the job department of The Herald Publishing Company, with J. O. Minor, a prominent local colored man, as editor and publisher.

The Negro News starts out as a four-page monthly newspaper, filled with news of interest to colored people, with local news.

If sufficient subscriptions and patronage can be secured it is the intention of Mr. Minor to continue the publication of the paper regularly.

Insomnia
Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere.

THE PROSPERITY LEAGUE

Personnel of Omaha Organization Starting Campaign against Prohibition Movement

Since the advertising done recently by the "Nebraska Prosperity League" there have been many inquiries as to the people who compose the league, both from the people in favor of prohibition and those opposed to it.

For the information of those interested on both sides and the public generally, we print herewith the following article, furnished by the secretary of the league:

"The movement among Omaha property owners to start an educational campaign against prohibition has resulted in a strong organization, over 350 charter members having signed the roll. The last conference was held at the Fontenelle Hotel. A number of brief speeches were made, the tenor of which was that the men engaged in all lines of merchandising and manufacturing, as well as property owners, had a viewpoint of prohibition irrespective of that of the liquor dealers. One speaker stated that prohibition is looked upon by the property owners of Omaha as a positive menace to the city's growth and prosperity.

"The chairman of the meeting stated the object of the movement and asked for suggestions. A list of officers and vice presidents was offered, and on motion, the men named were nominated. Their acceptances have been confirmed. The list is as follows:

President: L. F. Crofoot, attorney.
Treasurer: W. J. Coad, treasurer Coad Real Estate Co.
Secretary: James B. Haynes.

Vice Presidents:
Wesley D. Adkins, transportation company; Dr. C. C. Allison, surgeon; J. L. Baker, manufacturer; Chas. H. Brown, real estate investments; W. J. Burgess, investments; Harry V. Burkle, printer; W. M. Bushman, storage; Albert Cahn, manufacturer; E. M. Fairfield, real estate investments; John N. Frenzer, real estate investments; Dr. R. Gilmore, physician and surgeon; Ferdinand Haarmann, manufacturer; J. J. Hanighen, contractor; Frank B. Johnson, Omaha Printing Co.; C. J. Karbach, investments; Frank B. Kennard, capitalist; John Lätenser, architect; E. M. F. Leflang, capitalist; G. W. Megeath, coal operator; Sophus F. Noble, publisher; J. J. O'Connor, attorney; John G. Rosicky, publisher; W. H. Schmoller, jobber; G. E. Shukert, manufacturer; Paul Skinner, manufacturer; A. F. Smith, jobber; N. A. Spiesberger, wholesaler; Robert C. Strehlow, contractor; A. J. Vierling, manufacturer.

"On motion, the organization was styled The Nebraska Prosperity League. Blanks have been placed throughout the city, and friends of the movement are joining the league in considerable numbers. It is unnecessary to say that no liquor dealer, nor any man interested in the liquor business, was present at any of the conferences, and it was understood that such men are not eligible to membership. The league is extending its membership throughout the state. It is strictly nonpartisan.

"After discussion, the meeting unanimously adopted the following resolutions:

"Whereas, the progress and development of Nebraska during the last twenty-five years has been unparalleled in the annals of western states, raising Omaha to the dignity of a metropolis, and focusing upon our state and city the attention of the entire country; and

"Whereas, the taxpayers are responsible citizenship look with disfavor upon attempts to foist sumptuary laws upon our state, firmly believing that such laws, if enacted, would be a costly economic blunder; would impair property values; put a blight upon business enterprise, and be of incalculable injury to the moral and material welfare of our people; therefore, be it

Resolved, that it is the sense of this meeting of business men of the city of Omaha and state of Nebraska, that we believe the high license law regulating the sale of spirituous, vinous and malt beverages has yielded better results than prohibition would produce, and that it is our opinion that regulation will be better in its ultimate results than law-made prohibition which never prohibits.

"It is the purpose of the organizers of the league to create branches of it in every county in the state, and through these agencies to distribute a great deal of literature, and to appoint meeting places for anti-prohibition speakers during the progress of the campaign."

100 Bushels of first class rye for sale. Good for seed.

Another BUICK Record

Alliance Men Make Record Run to Pocatello, Idaho, in New Buick Six
After complete investigation of all makes of cars, Dr. J. P. Maxfield of Alliance recently purchased a new Buick Six, 1916 model, from J. L. Nicolai, local agent. On Thursday morning, April 13th, Dr. Maxfield and party, consisting of himself and I. U. Hager, J. Mollring, and "Punk" Johnson, left Alliance for Payette, Idaho, overland in the new car. Sunday morning the following telegram was received from Dr. Maxfield:

NIGHT LETTER WESTERN UNION TELEGRAPH COMPANY

Pocatello, Idaho, 5:30 P. M.
April 15, 1916.

W. M. Sauerbrunn,
Alliance, Nebr.
Total mileage 780. Fifteen miles to gallon gasoline average. First car to reach Evanston on its own power this season, also Montpelier and by bear lake. Struck lots of snow in hills. We look like lobsters with whiskers. Refuse to wash or shave till Monday noon. Have Alliance air in tires, no trouble or adjustments. Simply keep driving.
Dr. J. P. Maxfield.
